What to wear A helmet is strongly recommended for all, but required for ages ten and younger (a bike helmet is acceptable). Wear warm, insulated clothing that allows for unrestricted, free movement. Tall thin socks will help prevent blisters and won't bunch inside the skates. Gloves and mittens to keep your skater's hands warm and protect them from falls. A jacket. We recommend wearing sweatpants (snow pants are okay in the beginning for ages 3-5 and then move to lighter layers as they progress). Skate rentals are available at no additional charge, if they need skates.
